THIS IS UNEVALUATED INFORMATION

25X1

1. The agricultural machine factory in Mosonmagyaróvár, formerly Kuehne AG (corps) is a state-owned enterprise which is located at the southwestern periphery of the town. The area north and west of the factory was covered with buildings. South-east of the factory were fields. 25X1
2. A spur track connected the factory with the Mosonmagyaróvár railroad station. The factory is old, except for the bathhouse which was built in 1933.
3. The production of the factory included gang saws, sawing machines and binders. Cases for electric motors were produced in the foundry. Agricultural machines were produced in series of 25 machines. In March 1954, the production was concentrated on harvesting machines.
4. An estimated 1,200 persons including 240 women were employed in the factory. Work was done in one shift with the exception that additional shifts were introduced at the end of a month or quarter of a year.
5. Trained men were paid 900 to 1,000 forints and unskilled workmen 700 to 800 forints a month. Persons employed in the foundry and the painting shop were issued half a liter of milk per day. Gate guards and firemen were in charge of the security of the installation. Air-raid courses were held for the employees of the plant.

Comment. For layout of the factory, see Annex.
